

Come Play Your Part

© 2010 Beale, Greene, Moye, Pomery

- Verse 1** It's your time, what are you feeling?
Look all around, can you believe it?
Give it your all, let it flow through you
I'm by your side, all we need to do is... (sing)
- Pre chorus** Don't have to hide what's inside you (all you gotta do is... sing)
Let it out, let it surround you
- Chorus** We're gonna shout, we're gonna sing
Let the music give us all we need
Lay down a groove - move to what we feel inside
Feel the rhythm, keep the beat,
Feel it in your hands and in your feet
Lift your voice, find it in your heart, come play your part
- Verse 2** Don't miss out, there's nothing to fear
This is your chance, that's why we're all here
Just one song, everyone will remember
Let this song bring us all together
- Pre chorus** Don't have to hide what's inside you (all you gotta do is... sing)
Let it out, let it surround you
- Chorus** We're gonna shout, we're gonna sing
Let the music give us all we need
Lay down a groove, move to what you feel inside
Feel the rhythm, keep the beat,
Feel it in your hands and in your feet
Lift your voice, find it in your heart, come play your part
